A word from Mrs Cooney...

Happenings at BPS

Book Week was a highlight of the term again this year with lots of exciting activities and creative costumes on display to promote and celebrate the 'Magic of Reading'. I would like to say a huge thank you to our Book Week committee – Mrs Smith, Sam, and Mrs Warren, who put many hours into decorating the administration building and creating such an amazing week.

Grade 3 Camp

Our grade 3 students had a very busy week last week that not only included Book Week, but also their first school camp. I was lucky enough to join them for two nights and it was fantastic to see them challenging themselves to try new things and then see the pride they had in their achievements. I was also very impressed with their behaviour and positive interactions with each other. Thank you to Miss Stewart and Ms Lewis for organising and facilitating the camp.

Bendigo Discovery Centre

Our grade 1/2 students were very excited this week to head off on an excursion to the Bendigo Discovery Centre. They were able to further develop their curiosity in science and participate in hands on exploration.

Father's Day Stall

I would like to say a big thank you to our Parents and Friends group who once again produced a successful Father's Day stall. I hope there are lots of happy fathers and special people on Sunday when they open their gifts.

Road Safety Reminder

Our children are very precious, and we want them to be safe on the roads. It has been reported that some children are crossing roads on their way to and from school without looking carefully for traffic. Please remind your child of the importance of looking both ways before crossing the road whether they are walking or riding a bike or scooter.

Magnificent Maths

Just one thing...

Each newsletter edition, we will include information about '**just one thing**' that can have a positive impact on learning maths.

Another simple thing that you can do to develop strategic thinking in maths is to play card and board games. Even using dice helps students count, recognise numbers from the dots and build confidence and fluency with counting. Playing board games provides opportunities for students to think about which numbers they need to roll on the dice to get to a certain place, or to get past another player. The best thing is that you don't need lots of board games to develop strategic thinking – the more students play a game, the more strategically they will play it. Some suggestions are Monopoly, Snakes and Ladders, Uno and Snap.
